### **DETAILED ACTION**

1. Applicant's 1/20/06 Amendment, which withdraws from consideration claims 4, 9, 10, 11, 15, and 17-22, is acknowledged. The examiner interprets this withdrawal as equivalent to a withdrawal of claims to an invention non-elected without traverse. The examiner also notes that applicant has made an election without traverse in his 9/13/04 Response to the examiner's 7/13/04 Election/Restriction requirement.

Accordingly, claims 4, 9, 10, 11, 15, and 17-22 been cancelled.

### ***Allowable Subject Matter***

2. Claims 1-3, 5-8, 12-14 and 16.

### ***Reason(s) for Allowance***

3. The following is an Examiner's statement of reason(s) for allowance: Upon review of prior art or record, no method for providing improved reliability in an aircraft door flight actuator employing redundant mechanical and electrical energy sources for powering the actuator and a motor control system that limits the linear velocity of the actuator, as claimed by the Applicant, exists in the aeronautics art. Other details can be found in the record of prosecution of this application.

This statement is not intended to necessarily state all the reasons for allowance or all the details of why the claims are allowed and has not been written to specifically or impliedly state that all the reasons for allowance are set forth (MPEP 1302.14).

Any comments considered necessary by the Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled, "Comments on Statement of Reasons for Allowance."
